- We are in the planning phase to upgrade sites in Manakotak to 4G LTE as well as looking at ways to improve coverage on Aleknagik Rd in our coverage area of Dillingham.
- SPECIAL NOTE; We want to hear from our members, letting us know how we are doing. All new systems require optimization and we are still looking for ways to improve our coverage. Doing this could be as simple as adjusting an antenna or adding a new radio sector. We welcome customer feed back and we will listen.
